-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 26 February 2008.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

1. According to paper filed on Feb. 26, 2008, the applicants have amended claims 1, 17 and 19-22.
2. Claims 1, 2, 5-10 and 14-22 are pending in the application. Claims 3, 4 and 11-13 remain withdrawn from further consideration as being directed to non-elected invention.

Response to Arguments

3. Applicant's arguments filed on Feb. 26, 2008 have been fully considered but they are not persuasive regarding enablement rejection of claims 18 and 20-22. The applicants have amended claims to overcome all other rejections. In regard to enablement rejection of instant claims 18 and 20-22, the applicants did not address the rejection of claim 18 at all in their response. As stated clearly in the last office action, there is no teaching in the specification or prior art that VLA4-mediated cell adhesion will be maintained in the presence of hundreds of thousands of other drugs mentioned in instant claim 18. The combination may actually compromise their inhibitory effect due to drug interaction. In regard to enablement rejection of claims 20-22, the examiner does not agree with the applicants arguments that the specification is enabling for treating these disease conditions listed in instant claims 20-22. The applicants argue that specification on pages 141-143 demonstrates efficacy of instant compounds in mouse contact hypersensitivity and sheep allergic response assays. It is not true. There is no teaching of even a single compound which was shown to be effective in these assays. The applicants just mention that the inhibitors of this invention caused significant inhibition in these assays. The applicants need to submit these data in an affidavit form

Art Unit: 1625

showing inhibition by specific compounds since they seem to have these data according to the specification. Also, are these two assays well known animal models of every known inflammatory disease, immune or autoimmune disease, asthma, psoriasis, multiple sclerosis, diabetes etc.? Alternatively, applicants need to provide prior art references showing well established utility of VLA4-mediated cell adhesion inhibitors in disease conditions listed in claims 20-22.

4. In claim 17, line 2, the applicants are suggested to delete ---- or ----after for.

Conclusion

5. Rejection of claims 18 and 20-22 under 35 U.S.C. 112, first paragraph is maintained for the reasons of record.

6. Claims 1, 2, 5-10 and 14-22 are objected for containing non-elected subject matter.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
